Superior Aviation Company Joins the World Fuel Network

August 13, 2020 – Houston – Earlier this year, World Fuel Services (World Fuel) began supplying Superior Aviation Company (SACjet) at Sacramento International (KSMF), Sacramento Executive (KSAC) and Sacramento Mather (KMHR). SACjet now takes advantage of a number of World Fuel Network benefits including seamless payment processing with Total Aviation Software (TAS), commercial cargo carrier services and new payment flexibility with AVCARD by World Fuel.

SACjet operates FBO facilities at three airports in the Sacramento County Airport system in California. SACjet also holds International Standard for Business Aircraft Handling (IS-BAH™) certifications, one of the highest standards in the industry.

Joe Hansen, President, Superior Aviation Company stated, “Our implementation of IS-BAH standards is a true representation of our commitment to operators. SACjet’s facilities promote industry best practices and are known for safely, efficiently and accurately meeting the needs of guests with discretion. Joining the World Fuel Network enhances our application of best practices with strategic, reliable fuel sourcing, logistics and training solutions all backed by the latest technology.”

Steve Drzymalla, Senior VP for Business Aviation Bulk Fuel, World Fuel Services stated, “We proudly welcome Superior Aviation Company to the World Fuel Network. Their commitment to customer service makes them a valuable addition to our network and a reliable destination for operators flying to the Sacramento area.”

Customers can expect state of the art facilities with amenities of a world class FBO. Executive Jet Center at SAC is Sacramento’s Downtown Airport, only six miles to the State Capitol. Mather Jet Center at MHR has one of the United States’ largest ramp and runway combinations and boasts over 100,000 square feet of newly constructed hangar space. Capitol Jet Center at SMF provides convenient access to

commercial passenger service, supports customs clearance for international arrivals and is a strategic location for continental shelf traffic.

About World Fuel Services Corporation
