## **World Fuel Services Welcomes Jet West, West Coast FBO**

**August 19, 2020 – HOUSTON** – Late last year, World Fuel Services (World Fuel) began supplying Jet West at Salinas Municipal (KSNS). This facility is an exciting new addition to the World Fuel Network, in that many customers will be drawn to this area for nearby Monterey or a quick turn before leaving the West Coast on the way to Hawaii.

Located just 30 minutes outside of the popular Monterey area, Jet West's Salinas location is a great alternative for operators, pilots, schedulers and dispatchers looking for a quick and efficient turnaround. Jet West has a reputation for providing red carpet services with cost-effective rates. Customers can expect a wide range of ground transportation options, including limos and town cars, as well as a conference room, showers and high-speed wireless internet connections. Jet West's pilot lounge includes a full-sized pool table, large smart TV, comfortable recliners and complimentary refreshments.

**Ryan Gauger, President, Jet West, stated:** "Our facility in Salinas is strategically located just outside of the Monterey region known for its scenic area and proximity to Pebble Beach. We are an excellent alternative where customers can expect the best regional fuel price with a personal touch."

**Steve Drzymalla, Senior VP for Business Aviation Bulk Fuel, World Fuel Services stated:** "Jet West's proximity to the West coast and commitment to world-class FBO customer service make it a valuable addition to the World Fuel Network."

As a member of the network, Jet West can now benefit from World Fuel advantages such as seamless payment processing with Total Aviation Software (TAS) and new payment flexibility with World Fuel Contract. All aircraft operators flying into Jet West can directly gain from World Fuel Contract. This feature provides access to competitive fuel pricing at more than 3,000 locations worldwide with personalized service and expertise from our global team.
