See Business Flight Restrictions.

Traveler entering Austria has to show **one** of these three documents:

- 1. Negative COVID Test**

Traveler must show a PCR test no older than 72 hours OR an antigen test no older than 48 hours. (For travellers from certain countries, only PCR tests are valid). Tests need to be issued by a medical authority; self-tests are not valid. Children under 10 do not need to show a test.

2. Vaccine Certificate

The following vaccines (including mix-and-match vaccines) are recognised: BioNtech/Pfizer, AstraZeneca, Johnson & Johnson, Moderna, and Sinopharm. (Please be aware that this only applies to entering the country. Sinopharm is not valid for entering hotels, restaurants etc. within Austria.) You are considered "vaccinated" starting on the 22nd day after your first dose, lasting for 3 months from the vaccination date. After the second dose, the validity extends for another 6 months (i.e. the vaccination is then valid for 9 months total from the first vaccination date). Vaccines that only require one dose are valid from the 22nd day after that dose and for 9 months from the vaccination date. This also applies to people who have had COVID before and received only one dose of any vaccine.

3. Proof of Past Infection

Traveler can enter Austria for 6 months after a SARS-CoV-2 infection. Proof of antibodies is valid for 3 months from the test date.

Vaccination Certificate

Proof of negative test, vaccination, or past infection can be a doctor's certificate, an official test result, a vaccination certificate/vaccination card/vaccine passport (including a pdf from an electronic vaccine passport, either on your phone or as a hard copy), or an official/medical certificate proving a past infection, either in German or English. If your original certificate is **not** in English or German, please use [this official health certificate](#) in [German](#) or [English](#) as proof.

If you are unable to show any of these documents, you are required to take a PCR or antigen test within 24 hours of arriving in Austria. However, in this case, you will need to register digitally before travelling to obtain pre-travel clearance, and are required to show proof of it at the border (either digitally or as a hard copy). Find more information on the pre-travel clearance [here](#) and find the form you need to fill in before travelling [here](#).

Please note that travellers from **certain countries** always need to obtain and show pre-travel clearance in addition to the above documents.
